

So you can enjoy the important things in life

InnoSpire Mini compressor nebulizer system

InnoSpire Mini allows your patients to nebulize their medications whenever they want and wherever they may be. Compact, lightweight and reliable, it provides independence for people who want to get the most out of life.

An ideal traveling companion, InnoSpire Mini's compact size allows for easy transport while a breath-enhanced reusable nebulizer makes it easy to use. The SideStream Plus reusable nebulizer provides fast, effective treatment and can be used to effectively deliver most commonly prescribed aerosol medications.

Choose the time and place that's right for you

An optional rechargeable lithium ion battery operates the InnoSpire Mini compressor for up to 90 minutes between charges (and can be fully recharged in approximately 6 hours). A 12V DC (car) adapter enables the compressor to be powered in autos, trucks, boats and recreational vehicles. The compressor can also be powered by the traditional 110V AC wall outlet. InnoSpire Mini is compliant with selected FAA environmental RTCA/DO-160-F standards for airborne equipment as well as the international basic safety and essential performance standard IEC 60601-1 third edition and its amendments.

Accessories include

- SideStream Plus high-efficiency, reusable nebulizer
- Optional rechargeable lithium ion battery
- 12V DC (car) adapter
- AC adapter
- Carrying case
- Spare filters

SideStream Plus breath-enhanced, reusable nebulizer

The SideStream Plus breath-enhanced, reusable nebulizer features an easy-action inspiratory valve that opens on inspiration to boost medication delivery and closes on exhalation, preserving medication and reducing waste.¹

Significantly less pressure is needed to open the inspiratory valve, making it ideal for weak breathers, such as pediatric and elderly patients.

2 Continuous nebulization

3 Free discharge, no nebulizer attached

4 Measured with SideStream Plus nebulizer attached

Product specifications

Nebulization rate ²	0.2 ml. per minute
Nebulization capacity	8 ml.
Mass Median Diameter (MMD) ²	~ 5.0 μ (microns)
Maximum pressure of compressor ³	30 psi
Maximum liter flow of compressor ³	~ 8 liters per minute
Average flow rate of compressor ⁴	3.4 liters per minute @ 12.7 psi operating pressure
Weight	Compressor: 0.93 pounds (0.42 kilograms) Battery: 0.4 pounds (0.188 kilograms)
Size	Compressor: 4.5" x 3.5" x 2.1" Battery: 4.5" x 3.5" x 0.8"
Electrical requirements	12V DC, 1250 mA (compressor) 12V DC, 1700 mAh (battery)
Operating range	41° to 104°F 10 to 95% relative humidity
